EDUCATION

GOMYCODE

Certificate, Python Essentials CS

Nabeul, Tunisia

Jun 2024 - Aug 2024

HIGHER INSTITUTE OF LANGUAGES

Bachelor of Arts, English Language, Literature, and Civilization

Nabeul, Tunisia

Oct 2015 - May 2018

EXPERIENCE

GOMYCODE

Full Stack JavaScript Instructor

Nabeul, Tunisia

Jan 2024 – Sep 2024

- Delivered 100+ hours of hands-on instruction in the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Mentored learners through the entire software lifecycle—from project scoping and user-story creation to code review, testing, and production deployment.
- Monitored progress via assessments and one-on-one feedback driving 95% course completion and project delivery rate.
- Adapted teaching methods to individual learning styles boosting average student competency by end-of-course evaluations.

GOMYCODE

Game Development Instructor

Nabeul, Tunisia

Jul 2023 – Dec 2023

- Delivered instruction in Unity and C# through project-based workshops, guiding students in building interactive game prototypes.
- Orchestrated weekly mentorship sessions and peer code reviews to foster independent problem-solving skills
- Mentored students through full game-development pipelines, including concept ideation, asset integration, level design, and build optimization.

PROJECTS

PERSONAL PORTFOLIO

Jan 2025 – Present

- Architected and implemented a Twitter-inspired Next.js 15 application showcasing profile, articles, projects, media, milestones, and recommendations.
- Built rich Markdown rendering (react-markdown + react-syntax-highlighter) and “view-mode” toggles for single-article and single-project pages
- Developed secure email-token subscription/unsubscription flows persisted in cookies (js-cookie) to gate commenting and view tracking
- Implemented MongoDB/Mongoose backend via Next.js API routes for content persistence and user tokens
